EVENING WORLD OFFERS PLAN TO SMALL WAGE EARNERS TO BUY MORE LIBERTY BONDS

War Has Brought Prosperity to Workers and Their Increased Savings Can Aid-Instalment Plan of Savings Banks Makes It Easy.

The millions of small wage earners and thrifty savers of the United States must become subscribers to the Liberty Loan to make it a success.

There are 3,452,000 depositors in savings banks of New York State and 2,260,691 in New York City, with deposits averaging \$675 each. They are increasing their savings by many millions of dollars every year. War has brought enormous profit and prosperity to workers.

These new savings and the thrift of the future should be turned into Liberty bonds.

The Evening World suggests that every savings bank depositor and every wage earner, whether he has an account or not, turn \$1 or \$2 a week into the nearest savings bank to be applied on account of a Liberty bond.

The greatest and richest savings bank in America, the Emigrant Industrial Savings Bank of New York, has introduced this plan, and the other savings banks in the country should follow suit.

The Evening World calls upon the Treasury Department and the Liberty Loan Committee of New York to devise and issue some form of certificate or illuminated placard which every proud subscriber to a small bond can display.

The windows of Avenue A should glow with patriotism and evidence of subscribed dollars as well as the banking houses of Wall Street or the palaces of Fifth Avenue.

THE APPEAL TO THE SAVINGS BANK DEPOSITORS. At a meeting of savings bank presidents of Greater New York this

week the following resolution was adopted:

In due consideration of the needs of our Government for the successful prosecution of the war, and in response to the call made by the Liberty Loan Committee for the active co-operation of the savings banks, be it

Resolved, That the savings banks of Greater New York will to the full extent of their ability subscribe to the 4 per cent. Lierty Loan for themselves; and further,

Resolved, That they will use their best efforts to induce their depositors and others to subscribe to Liberty Loan 4 per cent. bonds and will provide facilities for receiving instalment payments to be made out of future earnings.

This action was designed to bring the great savings bank resources to support of the Liberty Loan and to enlist the army of small depositors without disturbing their present carefully hoarded small savings.

PHENOMENAL INCREASE IN SAVINGS BANK DEPOSITS. In Greater New York there are fifty-nine savings banks, with 2.350,000

counts, indicating practically the same number of individual depositors, with \$1,397,000,000 to their credit on July 1 last. During the year ending on that date these depositors added \$25,000,000 to their accounts and received \$49,000,000 interest, making a total gain of \$74,000,000 of new say ings for them. In the whole State of New York there are in round numbers \$2,000,000.

900 of savings bank deposits belonging to 3.452,000 depositors. Their added savings and interest during the year amounted to \$110,000,000,

Savings bank deposits in New York State have steadily increased during the past ten years, but never in such amount as during the war period. The financial panic of 1907 and 1908 put the increase down to \$16.000,000 in the latter year. The paralysis following the beginning of war in 1914 lowered the gain to \$29,000,000, but since then savings have skyrocketed. In 1915 the State savings banks gained \$47,000,000; in 1916, \$134,000,000, the high water mark, and in 1917 \$39,000,000 plus \$71,000,000 of interest making a total of \$110,000,000 of net savings.

It has been a problem for financiers how savings bank depositors might participate in the Liberty Loan without disturbing their accounts or losing interest, which is a serious matter with small savers. It also was a question of weighty consideration for savings bank officials how to obviate heavy withdrawals which would disturb loans and investments. For these reasons the banks have been very conservative toward is the phrase "instalment payments to be made out of future earnings. marshalling their depositors in line for the loan.

Under the progressive leadership of John J. Pulleyn, President of the thrift and new savings. Emigrant Industrial Savings Bank, the largest and richest in all America. FLAG STIRS PEOPLE TO FINANCIAL EFFORT. start has been made to direct new savings and future earnings of the people into Liberty Loan bonds without disturbing past savings.

The important part of the resolution adopted by the bank presidents
